

Wilmington Feb. 20 1874

My Dear Dr. Gray

The big box came yesterday, with Parlatore's immense suber. you vice specimens, of Australian and other plants, and the Agassiz mementos; the latter worth "more than they all".

I cannot express how much I value this gift, which useful as it may be, has its value immensely increased by its association with him whom we all revere. You will know how much I appreciate it and how grateful I feel to you for this kindness on your part.

When the weather moderates, I want to send you a root of *Tamoxenia Douglumondii* received a short time since from Dr. Chapman.

In joining me ever  
Yours truly
